Double-Header Basketball.

A double-header basketball game was the attraction at the Willamette University gym Saturday night, when the boys' and girls' teams of the Salem high school played against the representative teams of the Silverton high school. A large crowd of basketball enthusiasts filled the gym and cheered the respective players. At the end of both games defeat stared Silverton in the face, the girls winning by a score of 15 to 3, while the boys won by a score of 14 to 13.

The girls' game was a complete walk-over for Salem, as is shown by the result. Misses Rudolf and Lick were the star players for Salem, and Miss Edson, Silverton's center, made the only basket for their side.

The boys' game was lively from start to finish, and the local boys all played well. Perkins at center, and Holman at forward were really the stars. The game was won by Holman throwing a foul in the last half. Buffo as center for Silverton did good work for his side.

The lineup of the two teams is as follows:

Girls.		Boys.	
Salem.	Silverton	Salem	Silverton
Lick	Edson	Holman (5)	Downs
Schindler	P. Mascher	Parmer (3)	Schlader
Rudolph	Dunnels	Perkins (4)	Buffo (7)
Magnus	V. Mascher	Shramm (2)	Ross
Duncan	Smith	McIntyre	Wray (4)

Referee—Frank Rhodes.
Umpire—Harry Winstanley.

Gives Health, Vigor and Tone.

CONCERNING PRIMARY ELECTION

Attorney-General Holds That Voters Can Swear in Votes at Primary.

Replying to a communication from the clerk of Marion county, asking "whether blank A" should be enclosed in the ballot boxes and forwarded by the respective county clerks to judges and clerks of primary election, to enable an elector who has failed to register to swear in his vote at the polls at the direct primary to be held April 20th, the attorney-general holds that solution of the question depends upon whether an elector who fails to register has the right to vote at said primary election. After quoting section 15 of the direct primary law, the opinion says that were not this section modified other by sections of the act, then the intention would be plain that unless registered the party could not vote, but where it appears to be modified by sections of an act must be construed together.

The opinion says in part: "Constructing the law as a whole, it seems to be intended that blank 'A' should be used in direct primary elections for the same purpose it is used in the general election. It is a general rule of construction that or more laws upon the same subject must be construed in pari materia, and applying that rule to the matter under consideration I am of the opinion the intention was that an elector could vote at the direct primary the same as he votes at general elections, except that he must vote with the party with which he affiliates. Therefore, it would be necessary that said blank 'A' should be sent out with the box and poll books."

This is the season of listlessness, headaches and spring disorders. Hollister's Rocky Mountain Tea is a sure preventative. Makes you strong and vigorous. 35 cents, ten or tablets. Dr. Stone's Drug Store.

Prohi Convention.

The Prohibitionists will hold their county convention in this city on the 23d of this month, to nominate a full county and precinct ticket. They expect to have with them E. C. Hopkins, of Colorado, their state prohibition secretary there. He is a fine speaker and singer of great ability.

Cured Consumption.

Mrs. B. W. Evans, Clearwater, Kan., writes: My husband lay sick for three months. The doctors said he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. That was six years ago, and since then we have always kept a bottle in the house. We can not do without it. For coughs and colds it has no equal, 25c, 50c and \$1. For sale by D. J. Fry.

Second Advantage AND FEATURE of the RACYCLE

Is in having a chain pull between the two sets of bearings in the crank-hanger; which is done by recessing the hub of the cranks at the crank axle. This places one set of ball-bearings out side or to the right of the sprocket or chain line (as is shown in the cut last week. This gives a support to the sprocket on each side and cuts off all leverage from the chain pull, and the large sprocket revolves between the two sets of ball bearings.

There being a set of ball bearings on each side of the large or front sprocket on all Racycles, gives the Racycle an advantage in the use of very large sprockets, which cannot be used on other makes of bicycles. Further, there being a set of bearings on each side of the front sprocket insures the front sprocket being in perfect line with the rear sprocket in heavy driving or in hill climbing.

If there were no other advantages than that of having a set of bearings on each side of the front sprocket (which gives a chain pull between the bearings), this of itself would make the Racycle run much easier and last longer than any other make of bicycle.
